

Surface cleaner for copper and nonferrous metal

MC-DE6120B

FEATURE

- Can effectively remove non-ferrous metal surface grease, rust, dust and dirt.
- No acid mist, no pollution, low foaming and acid liquid products
- One-time processing complete to degrease and derust
- Non corrosion effect on the metal surface

APPLICATION PROCESS

- Appearance: Colorless or yellowish liquid
- Applied temperature: 45-70°C
- MC-DE6120B applied concentration: 30~50%
- pH: ≤ 2
- Treatment way: Dip or spray

Add the MC-DE6120B 30~50kg into a tank and add the water to 1000L. Then using treat the metal by dipping or spraying. Please remove rust, dust oil and other pollution by overflow or other way in time. It need to supplement the MC-DE6120B, when the cleaning effect can not meet your request.

APPLICATION

- Copper material
- Other nonferrous metals

NOTE

- MC-DE6120B is acid liquid and wear the protective equipment while using it.
- It contains the phosphate and please treat the waste liquid before discharge.
- Please wear the protective gloves when using it.
- Wash immediately with water when skin encounter the cleaning agent.

STORAGE AND HANDLING

- Available in 200 kg/ barrel or 25 kg/ barrel
- Storage period: ~12 months in closed containers, shady and dry place
